Kinnie Starr

Kinnie Starr Street Team

Join. Submit. Come back.

Three posts. Music from *DestroyHer*. What you make from there is yours.

1. Join or return

Visit kinniestarr.ca/street-team and choose **Sign Up**. Fill in your name, email, shirt size and shipping address. You can include your first post and optional screenshots in the same form, or come back with them later. Check your email and confirm the displayed details to finish signup. An included post goes to review after confirmation. Links work once and expire in 30 minutes; returning members can request a sign-in link.

2. Your info

Your signup details are saved in your account. You can correct your name, shipping address and T-shirt size before an order is approved. For T-shirt measurements and details, visit the DestroyHer Limited Edition Presale Bundle page and scroll to the bottom. Choose carefully - no returns.

3. Your first post

Make a public Instagram or Facebook post, tag **@kinniestarr** and add a song from *DestroyHer* using the music available inside Instagram or Facebook. A single photo, carousel or Reel counts. **Stories do not count.**

Paste the direct link under **Post URL #1**. You may add up to three PNG or JPEG screenshots, at most 2 MB each. Read the terms, check **I'm in. Shirt me.** and submit. Your dashboard shows the review status and any changes requested.

4. After your shirt arrives

Choose **My shirt has arrived** in your account. Make two more public posts and return to submit their direct links. Both must tag @kinniestarr and use DestroyHer in-app music. At least one must show you wearing the shirt. All three approved posts complete your offer.

For the Kinnie Starr team

Review in Email Studio

Sign in with your existing staff account, then open **Street Team**. Nich, Alex and Alida have the same review access. Select a fan to see their details, evidence and submission history.

First-post approval orders the shirt

Open the actual public post. Check the format, tag, in-app music and ownership. Use **Request changes** with a clear note if anything needs attention. To approve, choose **Estimate & approve shirt**, review the address, size and fresh Printful total, then confirm **Approve & order shirt**. This queues one paid supplier order. The fan pays nothing.

The utility orders the existing synced DestroyHer Limited Edition Tee through Printful under Hurry Hard Music. It does not separately create another Shopify order. Printful references and tracking appear in the entry.

Capacity and exceptions

The first offer has eight places. An email-confirmed first-post submission reserves one; an account or pending email confirmation alone does not. The public page does not show a counter. Declining an entry before an order releases its place. An ordered shirt keeps its place even if fulfillment needs attention.

If a supplier response is uncertain, the utility looks up the existing order instead of blindly placing or paying for another. A final cost above the approved estimate is held. Review the existing Printful order to resolve these cases; do not create a duplicate. **Check supplier status** refreshes recorded outcomes.

Posts two and three

After the fan confirms arrival, review the remaining posts. At least one must show the shirt being worn. Approvals, change requests and earlier versions remain in shared history.

Privacy and help

Sign-in links, shipping details and evidence are private. Street Team signup does not subscribe anyone to the newsletter. Contact allthings@kinniestarr.ca for account, address or fulfillment help. Keep gifted-product disclosure guidance in mind when reviewing promotional posts.
